WRITING TASK 1

You should spend about **20** minutes on this task.

The table below shows the sales at a small restaurant in a downtown business district.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

You should write at least **150** words.

Sales: Week of October 7 th – 13 th							
	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Lunch	\$2,400	\$2,450	\$2,595	\$2,375	\$2,500	\$1,950	\$1,550
Dinner	\$3,623	\$3,850	\$3,850	\$3,800	\$4,350	\$2,900	\$2,450

WRITING TASK 2

You should spend about **40** minutes on this task.

Some people think that it is important to use leisure time for activities that improve the mind, such as reading and doing word puzzles.

Other people feel that it is important to rest the mind during leisure time.

Discuss both views and give your own opinion.

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Write at least 250 words.

You should write at least **250** words.

SAMPLE WRITING TASK 1

The provided table gives data on the sales of a small restaurant for the second week of October month. As is observed from the given presentation, the sales volume of dinner is higher than the lunch sales volume throughout the whole week except Sunday and people spend more money for lunch and dinner to the restaurant on Friday.

As is presented in the comparison table, the sale amount of the restaurant in lunch time is around \$ 2300 to \$ 2600 from Monday to Friday. Their sales volume of dinner for the same days of the week is between \$3400 and \$4400. But on Saturday and Sunday, a different trend is observed when the sales volume drops compared to other days of the week and this is possibly because of the days off. On Sunday the sales volume of lunch decreases to \$ 1,550 and dinner to \$ 2,450 which are the least amounts they sale in the week. Interestingly the dinner sales volume on Sunday night drops to only \$ 2045 which is almost 2 times less than the amount they sell on Friday night.

In summary, the restaurant sales more for dinner than the lunch and people tend to eat less in restaurants on Saturday and Sunday.

SAMPLE WRITING TASK 2

It is generally accepted that we all need leisure time to recover from the stresses of work and everyday life.

Personally, I prefer to be active during this time, as I think this suits me better. However, what we do with our leisure time is up to us and no one can say that any particular activity is the best.

Some people relax by watching movies, reading or surfing the internet. People who have physically demanding jobs may choose these types of activities. If you are a nurse or builder, you may feel that you don't want to do a five-kilometre run after work, because you are already physically tired.

Other people do very sedentary jobs. Computer analysts, for example, may spend all day sitting in front of a computer screen. At the end of the working day, they may be keen to stretch their limbs and improve their health by swimming or going to the gym.

Another factor that influences our choice of leisure pursuit is where we work. People who work indoors often prefer outdoor hobbies, whereas for people who work outdoors, the reverse may be true. I am a student myself and this involves a lot of sitting in lectures, so I need to get out into the fresh air afterwards.

In any situation, the important thing is that people need to stay healthy by choosing what is

best for them. The only wrong way to spend free time, in my view, is to have a sedentary job and then go home and watch television.
